<u>APPLICATION OF RATES</u> 1. Except as otherwise specifically provided, when there are conflicting rates in effect on a shipment, the provisions specifically established for the payer (See Note A) of the freight bill will take precedence over and will apply to the exclusion of any other rate. EXAMPLE 2: On prepaid shipments, the consignor's rate will supersede the application of the consignee's. EXAMPLE 3: On collect shipments, the consignee's rate supersedes the application of the consignor's rate. 2. After a shipment has been delivered, changes in the payment terms of the bill in order to obtain lower charges will not be accepted. 3. All rates are in U.S. funds, except where otherwise provided. Note A: The payer is the party designated by the shipper, at the time of shipment, that is liable for the freight charges.	180

Exceptions must be pre-approved in writing by an authorized representative of the Carrier prior to the date of the shipment.	180-10

<p><u>CARGO LIABILITY</u></p> <p>This Carrier's quoted transportation rates and acceptance of shipments is conditioned and premised upon the declared and assumed values set forth in Item 180-20 hereof, which shall represent the Carrier's maximum possible liability regarding any shipment, and also upon the further liability limitations set forth herein which, to the extent applicable and not expressly prohibited by mandatory governing law, shall further govern and limit the Carrier's liability:</p> <p>808 The Carrier's liability is limited only to that portion of any transportation directly handled by this Carrier and occurring within the U.S.A. and/or Canada. Any transportation or billing arrangements made by this Carrier regarding a shipper's freight transportation outside the U.S.A. and/or Canada (including but not limited to any quotation of through rates for transportation into or out of Mexico) are made by this Carrier solely as an accommodation and convenience to the shipper, but shall not create any liability with respect to any claim or loss arising or occurring outside of the U.S.A. and/or Canada.</p> <p>Furthermore, with respect to interline or multimodal shipments originating or ending outside the U.S.A. and/or Canada, Carrier's liability shall be further limited to collision damage to the cargo while being transported by Carrier within the boundaries of the U.S.A. and/or Canada, and all other or liability claims (including but not limited to weather damage, internal damage from bumping/shaking, theft, shortage, Mexican damage, etc.) shall <u>not</u> be Carrier's responsibility. If this geographical liability limitation is ineffective for any reason, then Carrier's liability will be limited to the lesser of (1) five U.S. cents per pound (\$0.05/lb.) or (2) the current standard liability limitation under Mexican law for uninsured goods for which no higher valuation has been declared, with claims for such Mexican losses to be asserted within the time limits provided under Mexican law.</p> <p>B. The Carrier shall be liable only for loss, damage or failure of performance caused by the Carrier's negligence or its failure to comply with applicable laws or the terms of any applicable agreement. The Carrier shall not be liable for any loss, damage, delay or failure of performance which was beyond Carrier's reasonable control. In no event shall the Carrier be liable for incidental, consequential, indirect or similar special damages, nor for claims excluded from carrier liability under the Uniform Straight Bill of Lading. The Carrier also shall not be responsible for the acts or omissions of lumpers, cartage agents, customs brokers, Mexican interline carrier or other third parties who may be involved in the handling or transportation of cargo.</p> <p>C. Subject to the declared value limitations of Item 180-20 hereof, the measure of loss for cargo damage, loss, injury or delay occurring in the U.S.A. and/or Canada while in this Carrier's custody or possession or subject to this Carrier's control shall be the lesser of: (1) the shipper's cost of damaged cargo or (2) the damaged cargo's fair market value, less any reasonable salvage value in either case.</p>	<p>408</p>

FUEL ADJUSTMENT

A fuel adjustment, based upon the national average on diesel fuel, reported each Monday by the Department of Energy ("DOE"), will apply on all line-haul freight charges. The surcharge will be expressed in terms of cents per mile, according to the following scale. In the event the DOE national average fuel price exceeds the amount shown in the scale, the fuel surcharge will continue to increase at the rate of .01 cents for every .045 cent increase in the DOE national average fuel price. You may monitor the national average on diesel fuel by calling the DOE at (202) 586-6966 or going to www.eia.doe.gov.

Containers must be used when necessary by Shipper to afford reasonable and proper protection of contents. Shipping containers must be made of materials which will afford safe handling, reasonable and proper protection of contents and protection against damage to other goods. Interior packaging devices must be provided where such interior packaging devices are necessary to afford adequate protection against damage to the contents of a container. Articles, or article and necessary interior packaging devices must reasonably occupy the full cubic capacity of the outer shipping container. In the absence of any packing provisions in the description for an article, such article may be accepted by Carrier in any form in which tendered. <u>QUOTES</u>	
<p>Quotes are for informational purposes only. The correct and applicable rates and charges for a movement shall be those rates and charges individually determined or contractually established in writing prior to the shipment.</p> <p>In cases of contract carriage, if the Shipper tenders or causes to be tendered to Carrier, and Carrier accepts and transports, any shipment subject to a contract without the rates or charges therefore having first properly been made a part of the contract, the rates and charges for such shipment shall be subject to Carrier's matrix price schedule.</p>	815
<u>PRIMACY OF CONTRACT OR INDIVIDUALLY DETERMINED RATE</u>	
<p>Line-haul, ancillary and other rates which have been individually determined in writing between this Carrier and a shipper or other customer, under contract or otherwise, shall prevail over any conflicting method provided by this tariff for determining such rates. This tariff's provisions for determining line-haul rates and other charges shall be determinative only in the absence of an individually determined rate for such transportation or service.</p>	816

However, Carrier will not be responsible for failure to effect such a change.</p> <p>(D) A charge of \$125 + contract rate per loaded mile plus fuel surcharge to new destination will be made for each diversion or re-consignment in addition to all other applicable charges.</p> <p>(E) When rate to be applied on shipment's accorded re-consignment or diversion point is higher than the rate from point of origin to final destination, such higher rate will apply.
